

Work package 7: Knowledge dissemination and stakeholder participation (WP7) [1]

OBJECTIVES

1. To disseminate and support the uptake of project outputs to selected relevant communities (river basin authorities/water managers (especially at the REFORM case study sites), national environment agencies, policy makers through the Common Implementation Strategy of the WFD at international, national and local scale)
2. To increase visibility and awareness of issues associated with river restoration.
3. To engage directly with practitioners and relevant stakeholders in the development of the applications and tools delivered by the project.
4. To provide policy-relevant documentation and to advise policy makers and practitioners on cost-effective, sustainable measures to improve river ecosystems.
